

**12278.....TORAY LC750PC
Oxygen Analyzer**

TORAY OXYGEN ANALYZER

LC-750

The zirconium oxygen analyzer, with input rangeability from ppm to percent, is fast, accurate, easy to use, and maintain.

POWER

READY

FOR BEST OPERATING RESULTS

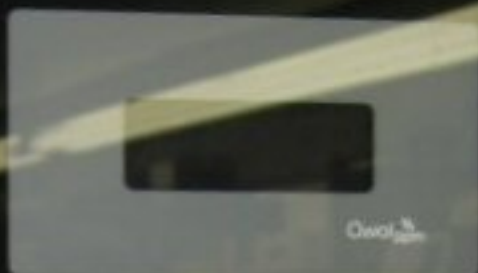

- Remove condensate or inflammable components such as combustible particles, gases, vapors, oils, condensates and dust from gas sampling stream.
- For all sampling system piping, use copper or stainless steel.
- Thoroughly wash out piping system after installation.
- Avoid gas pockets in piping.
- Avoid external gas leakage into sampling piping.
