

14059.....CREATIVE AUTOMATION

Champion 3000 Dispenser

The CHAMPION 3000 is controlled by a Personal Computer equipped with a color monitor and easy-to-use proprietary application software.

The intuitive graphic user interface allows you to program and operate the machines with pushbutton point-and-click simplicity. In addition to standard dispensing patterns and subroutine capability, the software provides powerful advanced functions such as Automatic Vision with fiducial and stretch adjustment, CAD programming, Dot Verification, Parts "Inkout", and more.

OUTPUT TO
